EXPERIENCES

Data Science 120 hours Program

Virtual Internship

📅 Nov 2023

📍 Virtual

- Gained practical experience in Data Science.
- Designed to empower aspiring data scientists and analysts, this intensive course offers a robust curriculum tailored to provide hands-on experience and in-depth understanding of key concepts.

PROJECTS

Laptop Price-predictor

🐙 /niranjanq/price-predictor

- I designed and implemented a laptop price predictor utilizing Python programming language and a Random Forest model. Through rigorous data preprocessing, feature engineering, and model optimization techniques, I developed a robust solution capable of accurately forecasting laptop prices based on various specifications and features.

E-shoes

🐙 /niranjanq/E-shoes

- Created a Frontend for an E-com Website using React and tailwind CSS. Where it shows different products available. It also shows whether the items shown are in sale or not.

Poll App

🐙 /niranjanq/Poll

- Developed a dynamic polling app using Svelte, focusing on interactive user interfaces for creating and participating in polls. Currently handling all operations on the frontend with plans to implement a backend for data persistence and user authentication.

GIF-Vibes

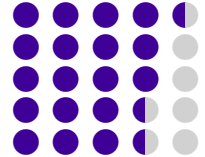

🐙 /niranjanq/GIF-Vibes

- Leveraging my programming skills and a deep understanding of APIs, I integrated seamlessly with relevant platforms to ensure a vast and diverse GIF library.

SKILLS

PROGRAMMING LANGUAGES

Javascript
Typescript
C++
MySQL
Python

FRAMEWORKS AND TOOLS

React.Js

Tailwind-Css

Node.Js

Express.Js

Socket.io

Docker

DATABASES

MySQL

EDUCATION

Graduation in Computer Science

Government College Of Engineering Kala-handi, Bhawanipatna

📅 2021 - 2024

Diploma in Computer Science

Uma Charan Pattnaik Engineering School, Berhampur

📅 2019 - 2021

Intermediate in Science

Jhadeswar +2 Science Residential Higher Secondary School, Balasore

📅 2017 - 2019

LANGUAGES

English

Hindi

Odia
